

# ALEJANDRO VIEJO

Houston, Texas (*Open to relocation*) · +1-210-430-3669 · viej20@tamu.edu  
**Portfolio:** <https://www.alejandro-viejo.com> · **GitHub:** <https://github.com/aviej20>

---

Front-end developer specializing in **building accessible, scalable UI systems** used across **400+ Texas A&M System websites**. Experienced building reusable components, responsive layouts, and CMS-driven interfaces in **HTML, CSS/SCSS, JavaScript, Storybook, and WordPress** within Agile teams.

## PROFESSIONAL EXPERIENCE

---

### Texas A&M University — Remote (Houston, TX)

Jan 2024 – Present

#### Web Applications Developer I

- Built and maintained reusable UI components for the **Aggie UX design system**, powering **400+ TAMU System websites** including **tamu.edu**, **artsci.tamu.edu**, and **pvfa.tamu.edu**.
- Completed **200+ GitHub issues** (~33% of the project workload), resolving bugs, accessibility errors, UI polish, and design inconsistencies while collaborating in Agile SCRUM teams
- Implemented **WCAG-compliant accessibility** and responsive design across all components.
- Improved Storybook documentation and component organization to enhance developer experience and cross-team usability.
- Built custom **WordPress** themes using **PHP**, Advanced Custom Fields, and Gravity Forms.

### Texas A&M University — College Station, TX

Nov 2022 – Dec 2023

#### Web Communications Intern

- Maintained and updated **50+ university web pages**, improving accessibility, responsiveness, and supporting **CMS migrations and departmental redesigns**
- Troubleshoot layout, structure, and content issues for stakeholders across the university

## SELECTED PROJECTS

---

### 150.tamu.edu — HTML, CSS/SCSS, JavaScript, Cascade CMS

- Led the end-to-end development of 150.tamu.edu in **Cascade CMS**, delivering **custom UI components**, including an image slider reveal component and timeline UI pages, in **3 weeks**.
- Implemented responsive, **WCAG-compliant** interactive UI for a public-facing university site.

### AI Crisis Support Interface Chat — HTML, CSS/SCSS, JavaScript

- Interactive mental-health support UI featuring **animated splash screens, dynamic DOM rendering**, client-side state, and real-time AI responses via **API integration**.

## EDUCATION

---

### Texas A&M University — College Station, TX

Dec 2023

#### Bachelor of Science in University Studies - Business

- Concentration in **Computer Science**
- Minor in **Art (New Media)**
